1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lucas et al. Lucas et al discloses a rolling door comprising first and second panels 11 secured together by first and second hinge interlock parts 15,17, end openings 49 remotely of the hinge interlock parts, and an insert 53 having a plug portion receiving the roller axle 57 within a bore.

2. Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. Attention is directed to the following prior art which is pertinent the applicant's device: Whiteman, Denoual et al, Langlois, Pettersson et al, Wright, Saliba et al, Esnault, Rekret.
